

JASLYN CHEN

CREATIVE TECHNOLOGIST

+65 9657 8366 jaslynchenwh@gmail.com jaslynchen.com Singapore

I create the systems ideas need, whether they're brand new or already running. I sit between design and development, I diagnose where a workflow or concept falls short, then build the tool, prototype, or architecture that gets it working. My background spans production tooling, technical game design, and 3D/technical art, with hands-on experience designing custom AI workflows where they genuinely speed things up.

WORK EXPERIENCE

Creative Technologist (Freelance) / PR Intern

May 2026 – Present

Gloo Communications Pte. Ltd. — Internship May-Jul 2026; freelance ongoing

- Identified that internal reporting and coverage tracking were slow and manual; in just under two months, built a Timeline Builder, an email automation tool, and a website for the company — incorporating AI tooling where it sped up the work
- Took on freelance work after the internship to continue building on these systems

Project-in-Charge

Mar 2023 – Jul 2024

Ngee Ann Polytechnic

- Created various media and set up projects and hardware for Level 4 Immersive Labs in the School of ICT

Developer and Artist Intern

Sep 2022 – Feb 2023

Swirly Studios LLC, USA (Silicon Valley)

- Developed a Spanish-language learning web game using TypeScript and Lit.dev
- Created codable graphical assets (SVG) and integrated them into the application

Multimedia Intern

Mar 2022

HelloHolo — Tech Start-Up

- Animated 3D assets in Maya for an NFT web application
- Developed an overseas application for Microsoft HoloLens in Unity (C#) across a team of 5 developers and designers

3D Environment Modeler

Nov 2021 – Feb 2022

Istana Animated Video Project

- Created 3D environment models in Maya for an animated video produced for Istana Singapore (Office of the President of the Republic of Singapore), which reached 812 views and was launched on the official Istana website

UI/UX Designer

Jun 2020, Jun 2021

NP Global

Redesigned the Ngee Ann Polytechnic Global website in Adobe XD based on user feedback from 4 focus groups (~50 participants)

SKILLS

Production Tooling & Automation: Github, JetBrains Rider, Firebase, Custom AI Workflows

Web Development: HTML, CSS, JavaScript, React.js, TypeScript, Tailwind CSS

Coding / Game Dev: Unity, Unreal, C#, AR, VR, MR

3D Production: Maya, ZBrush, Substance Painter, Houdini, Nuke

Graphic / 2D Design: Adobe Illustrator, Photoshop, Premiere Pro, After Effects

Web Design: Figma, Adobe XD

EDUCATION

Nanyang Technological University

BFA in Art, Design and Media | 2023 – Present

NTU Koh Boon Hwee Scholarship (beneficiary)

Ngee Ann Polytechnic

Diploma in Immersive Media | 2020 – 2023

Ngee Ann Polytechnic Scholarship

ACHIEVEMENTS

HelloHolo Prize

Best performance in cohort for internship semester, 2023

WorldSkills Singapore 2021

Web Technologies

AWARD PROGRAMS

GEIP (Global Entrepreneur Internship Program) Award

Global Innovation Alliance Office — selected for a remote overseas internship as a web developer and graphics artist, Sep 2022 – Feb 2023

Director's Honor Roll

Immersive Media, multiple semesters

LEADERSHIP EXPERIENCE

Stritewise 2020

Amphibi Studios, Student Instructor — taught 50+ secondary school students to use Spark AR software for an AR face-filter competition

ICT Society — Exco (Treasurer) & Event Planning

Ngee Ann Polytechnic, 2021–2022 — coordinated an orientation program for 400+ incoming freshmen (overseeing a 67-person event committee and 11 gamemasters) and a virtual investiture ceremony (managing a 10-person organizing committee)
